DESCRIPTION

FullStack Software developer with 5 years of experience in C# and JavaScript. Proficient in building robust web applications using ASP.NET, ASP.NET Core, and .NET. Confident using frontend technologies like Angular, jQuery.

Experienced in various architectures such as Microservices, Clean, DDD, MVC and more. With a strong knowledge of Git, TFS and agile tools like Jira, Azure Dev Ops and Open project.

I have worked on the development of multiple web solutions, including ERPs, E-commerce, WMS, university systems, geolocation-based systems, and other types of applications.

This experience provides me with a broad perspective and the ability to adapt to different development contexts.

EDUCATION

Computer Engineering (2020 – Today)

Alejandro De Humboldt University - Caracas, Venezuela.

EXPERIENCE

Full-Stack Software Developer at Mobeats.

Aug. 2021 – today

Reference: Miguel Collantes (+54 9 11 66535688) Project Manager.

- Designed and developed robust web applications using ASP.NET Core and the latest versions of .NET, ensuring a high performance and scalability.
- Implemented frontend solutions using Angular and associated libraries, enhancing the user experience on the interfaces.
- Applied multiple architectures including Clean, DDD and others.
- Managed databases including SQL and MongoDB.
- Deployed applications using Docker for efficient containerization and deployment.
- Tested applications using best practices and tools like NUnit or XUnit.

Full-Stack Software Developer at Ve Core Systems

Apr. 2019 – Aug. 2021.

Reference: Edward Uzcátegui (+58 414 2599289) CEO.

- Designed and developed robust web applications using ASP.NET Core, ASP.NET and WinForms ensuring a high performance and scalability.
- Implemented frontend solutions using jQuery, Razor, Angular and associated libraries, enhancing the user experience on the interfaces.
- Applied multiple architectures including Clean, DDD, MVC, Microservices and others.
- Managed SQL databases.
- Tested applications using best practices and tools like NUnit, XUnit and Selenium.
